Connected Load Information (KW):

Lighting Heating Air Conditioning
Total Motor HP Largest Motor HP
Estimated Peak KW

Projects require a field visit prior to preparing a cost estimate. A \$200 engineering deposit is required before a field visit will be made. The deposit is non-refundable but will be applied to project costs if service is built within 12 months of original application. If the project is deemed inactive after 12 months, the work order will be closed and a new application and deposit will be required.

Field Visit Information:

Party to Contact Phone Cell Phone

A staking technician will contact you to schedule a field visit. At this time, specific questions can be answered on site by the staking technician. After the field visit, the staking technician will prepare a cost summary and necessary paperwork. Applicant must complete and sign all paperwork and return it to the office with payment of all necessary charges. The design and installation of your line extension and service will be based on the Rules and Regulations and the Line Extension Policy of Flint Hills Rural Electric Cooperative. Flint Hills Rural Electric will solely determine the capability of the system to provide your service requirement along with the route and most cost-effective design.
