This institution is an equal opportunity provider and employer

FROM THE MANAGER

Prioritize Safety Year-Round

The Flint Hills Board of Trustees and I want to thank everyone that attended the annual meeting. It was nice to finally meet in person again for a night of fellowship and catching up with our members. We hope to see you again next year as we will celebrate our 85th anniversary.

At Flint Hills REC, we recognize electrical safety month every May, but we also know the importance of practicing safety year-round. From our co-op crews to you, the consumer-members we serve, we recognize that everyone has a part to play in prioritizing safety.

According to Electrical Safety Foundation International, thousands of people in the U.S. are critically injured or electrocuted as a result of electrical fires and accidents in their own homes. Many of these accidents are preventable. Electricity is a necessity, and it powers our daily lives. But we know firsthand how dangerous electricity can be because we work with it 365 days a year.

To me, safety is more than a catchphrase. As general manager, it's my responsibility to keep co-op employees safe. Additionally, we want to help keep you and all members of our community safe. That's why you'll see Flint Hills REC hosting safety demonstrations at community events and in schools throughout the year, to demonstrate the dangers of electricity. We discuss emergency scenarios, such as what to do in a car accident involving a utility

pole and downed power lines. We caution attendees on the dangers of pad-mounted transformers and overloading circuits with too many electronic devices and much more.

Electricity is an integral part of modern life. Given the prevalence of electrical devices, tools and appliances, I'd like to pass along a few practical electrical safety tips.

FRAYED WIRES POSE A SERIOUS SAFETY HAZARD. Power cords can become damaged or frayed from age, heavy use, or excessive current flow through the wiring. If cords become frayed or cut, replace them, as they could cause a shock when handled.

AVOID OVERLOADING CIRCUITS. Circuits can only cope with a limited amount of electricity. Overload happens when you draw more electricity than a circuit can safely handle — by having too many devices running on one circuit.

LABEL CIRCUIT BREAKERS TO UNDERSTAND THE CIRCUITS IN YOUR HOME. Contact a qualified electrician if your home is more than 40 years old and you need to install multiple large appliances that consume large amounts of electricity.

USE EXTENSION CORDS PROPERLY.

Chuck Goeckel

Continued on page 12B ▶

Prioritize Safety Year-Round

Continued from page 12A ▶

Never plug an extension cord into another extension cord. If you “daisy chain” them together, it could lead to overheating, creating a potential fire hazard. Don’t exceed the wattage of the cord. Doing so also creates a risk of overloading the cord and creating a fire hazard. Extension cords should not be used as permanent solutions. If you need additional outlets, contact a licensed electrician to help.

I encourage you to talk with your kids about playing it safe and smart around electricity. Help them be aware of overhead power lines near where they play outdoors.

Our top priority is providing an uninterrupted energy supply 24/7, 365 days per year. But equally important is keeping our community safe around electricity.

Contact Flint Hills REC for additional electrical safety tips or if you would like us to provide a safety demonstration at your school or upcoming community event.

Help Us Locate

Flint Hills RECA has been unable to locate the former members listed below who have unclaimed capital credit refunds that were retired more than three years ago. If you know any of these former members, please have them call us at 620-767-5144.

In accordance with the cooperative’s bylaws, failure to claim the refunds within 60 days of this notice (before July 31, 2022) will cause the total amount of the refund to be irrevocably gifted back to the cooperative. A list, which includes the city and state of the last known address listed on the cooperative’s records, is below and also located on flinthillsrec.com.

SIGN UP TO SAVE

JOIN THE PEAK ALERT SAVINGS PROGRAM

Save on your bill when electricity demand is high. Sign up for **PEAK ALERT SAVINGS** and receive an energy credit when you lower your energy usage during peak hours.*

The lower your usage, the **BIGGER THE CREDIT** you could be eligible for. The sign-up deadline is **JUNE 30, 2021**

SIGN UP BY TODAY!

MEMBERSERVICES@FLINTHILLSREC.COM OR 620-767-5144

*Some program restrictions apply. Credit only valid for reductions in the months of July and August, from Monday-Friday from 3-6 p.m. (excluding July 4). This program will be active on peak load days when alerts are sent to participating members. Visit www.flinthillsrec.com for a full list of program details.
